**Ε.Δ.:** Γραφείο κ. Πρέσβη

**ΘΕΜΑ:** Ανακοίνωση δημοσίου διαγωνισμού για την επιλογή αναδόχου κατασκευής-εγκατάστασης μεγάλης μονάδας αποτέφρωσης αστικών απορριμμάτων στη Σόφια – 11/01 τ.ε.

**ΣΧΕΤ:** Έγγραφό σας με Α.Π. 19542 από 15.04.2020 (μη προς όλους)

Σας γνωρίζουμε ότι η Δημοτική Επιχείρηση Θέρμανσης (“*Топлофикация София ЕАД*”) της Σόφιας, ανακοίνωσε στις 11/1 τ.ε. την προκήρυξη δημοσίου διαγωνισμού για την υλοποίηση σύμβασης ύψους 292,2 εκατ. BGN / Lev προ ΦΠΑ (149,4 εκατ. ευρώ) που αφορά στην κατασκευή μιας μεγάλης μονάδας συμπαραγωγής ηλεκτρισμού και θερμότητας (CHP) στην πρωτεύουσα. Το ποσό καλύπτει τις δραστηριότητες σχεδιασμού, εποπτείας, κατασκευής της εγκατάστασης και προμήθειας του εξοπλισμού. Η μονάδα αυτή σχεδιάζεται να αξιοποιήσει καύσιμα που προέρχονται από απορρίμματα (Refuse-Derived Fuel - RDF) ως μέρος της στρατηγικής διαχείρισης αστικών απορριμμάτων της πρωτεύουσας, Σόφιας.

Συγκεκριμένα, η Δημοτική Επιχείρηση Θέρμανσης έχει ως σκοπό να αξιοποιήσει την τρέχουσα χρηματοδότηση της ΕΕ στο πλαίσιο του Επιχειρησιακού προγράμματος (ΕΠ) «Περιβάλλον 2014-2020», καθώς και ένα δάνειο από την Ευρωπαϊκή Τράπεζα Επενδύσεων (ΕΤΕπ) για τη χρηματοδότηση της κατασκευής της μονάδας CHP. Το έργο αυτό αποτελεί στρατηγικό «έργο προτεραιότητας» για τη β/κυβέρνηση στον τομέα των περιβαλλοντικών υποδομών, έχει δε μακρά προϊστορία δεδομένου ότι διανύει την τρίτη φάση υλοποίησής του [για δύο προηγούμενες φάσεις βλέπε: [https://ec.europa.eu/regional\\_policy/en/projects/Bulgaria/cogeneration-unit-in-sofia-to-produce-heat-and-electricity-from-refuse-derived-fuel](https://ec.europa.eu/regional_policy/en/projects/Bulgaria/cogeneration-unit-in-sofia-to-produce-heat-and-electricity-from-refuse-derived-fuel)]. Επιπλέον, έχει καταστεί κατά καιρούς αντικείμενο επικρίσεων από ομάδες πολιτών ή περιβαλλοντικές ΜΚΟ οι οποίες αντιτίθενται στην υλοποίησή του, λόγω του ότι η τοποθεσία υλοποίησής του εντοπίζεται σε κεντρική περιοχή της πρωτεύουσας (Βιομηχανική Ζώνη “Military Ramp”). Ειδικότερα, η μονάδα προβλέπεται να κατασκευαστεί στην περιοχή που βρίσκεται ο Θερμοηλεκτρικός Σταθμός της Σόφιας (ТЕЦ София), εγκατεστημένης ισχύος 130 MW, πλησίον του Κεντρικού Σιδηροδρομικού Σταθμού της πόλης.

Κεντρικός στόχος αυτού του έργου είναι η καύση των στερεών οικιακών απορριμμάτων τα οποία παράγονται ήδη από τη μονάδα παραγωγής καύσιμης ύλης από απορρίμματα στο χωριό Yana, πλησίον της πρωτεύουσας. Το τελικό προϊόν το οποίο θα προέρχεται από την καύση - το λεγόμενο RDF ή στερεό καύσιμο από απόβλητα - θα χρησιμοποιείται για την συμπαραγωγή θερμότητας και ηλεκτρικής ενέργειας. Με την υλοποίηση του έργου, η β/κυβέρνηση έχει θέσει ως στόχο να παράγει ετησίως μάζα RDF 180.000 τόνων, ώστε να επιτευχθεί αντιστοίχως από τη νέα μονάδα επιπλέον παραγωγή 55 MW θερμότητας και 19 MW ηλεκτρικής ενέργειας για την κάλυψη αναγκών επιπλέον 30.000 έως 40.000 κατοίκων. Υπολογίζεται ότι από την υλοποίηση του έργου η Δημοτική Αρχή της Σόφιας θα εξοικονομήσει σημαντικούς πόρους οι οποίοι διατίθενται για την καύση των απορριμμάτων που παράγονται στην πρωτεύουσα και την ίδια στιγμή θα είναι σε θέση να αυξήσει σημαντικά το μερίδιο της τοπικής προμήθειας θέρμανσης. Ωστόσο, την ίδια στιγμή εγείρονται ερωτήματα σχετικά με τις επιπτώσεις για το περιβάλλον και τη δημόσια υγεία από τη μελλοντική λειτουργία μονάδας καύσης αστικών απορριμμάτων πλησίον του κέντρου της πρωτεύουσας.

Η αναθέτουσα αρχή, δηλαδή η Δημοτική Επιχείρηση Θέρμανσης της Σόφιας, εκτιμά ότι η κατασκευή της μονάδας θα οδηγήσει σε μερική διαφοροποίηση της βάσης καυσίμου για παραγωγή ενέργειας – με αντικατάσταση ποσοστού περίπου 11% του φυσικού αερίου από RDF, καθώς και αύξηση της ενεργειακής απόδοσης στην παραγωγή. Η τεκμηρίωση αναφέρει επίσης ότι, εκ της λειτουργίας της μονάδας θα επιτευχθεί «μείωση των εκπομπών αερίων του θερμοκηπίου ανά μονάδα ενέργειας» και ότι θα είναι δυνατή η περαιτέρω μείωση της τιμής της παραγόμενης ενέργειας. Η Ευρωπαϊκή Επιτροπή διαπίστωσε ότι η συνδυασμένη παραγωγή ηλεκτρικής ενέργειας και θερμότητας από τη νέα μονάδα θα εξοικονομήσει ποσοστό 46,5% επί της πρωτογενούς ενέργειας σε σύγκριση με τη χωριστή παραγωγή της και ότι "το έργο παρέχει μια λογική απόδοση".

Αναφορικά με το έργο καθ' εαυτό, επισημαίνεται ότι ο ανάδοχος θα έχει την υποχρέωση να υποστηρίξει τη Δημοτική Επιχείρηση Θέρμανσης της Σόφιας στη λειτουργία και τη συντήρηση της εγκατάστασης, καθώς και στην εκπαίδευση του προσωπικού για περίοδο διάρκειας 3 ετών. Καίτοι η εγκατάσταση θα βρίσκεται στην εδαφική επικράτεια που καλύπτει η Δημοτική Επιχείρηση Θέρμανσης και θα χρησιμοποιείται στο μέλλον από αυτήν, ο Δήμος της Σόφιας είναι αυτός που θα πληρώνει για τη λειτουργία της, τουλάχιστον έως το έτος 2040. Οι ιδανικοί υποψήφιοι για τη διεκδίκηση της δημόσιας σύμβασης, θα πρέπει να είναι μεγάλης κλίμακας εργοληπτικές επιχειρήσεις με εμπειρία στην υλοποίηση ενεργειακών / περιβαλλοντικών έργων ή παρόμοιων εγκαταστάσεων και να έχουν έναν ελάχιστο κύκλο εργασιών στον τομέα (κατασκευή ενεργειακών εγκαταστάσεων, μονάδων RDF ή απορριμμάτων) ύψους 290 εκατομμυρίων BGN / Lev [148,2 εκατ. ευρώ] τα τελευταία τρία χρόνια. Τα πλέον σημαντικά κριτήρια για την επιλογή του εργολάβου είναι η άμεση οικονομική αξία κατά 60% (περιλαμβάνει το μελλοντικό λειτουργικό κόστος επιπλέον της τιμής), η περιβαλλοντική και τεχνική αξία κατά 35% και η έμμεση οικονομική αξία κατά 5%. **Ως καταληκτική προθεσμία υποβολής προσφορών ορίζεται η 15<sup>η</sup> Μαρτίου τ.ε.**

Επισυνάπτουμε την προκήρυξη του διαγωνισμού, σε άτυπη μετάφραση στην αγγλική γλώσσα. Η πρωτότυπη προκήρυξη με ημερομηνία 6/1 τ.ε. είναι διαθέσιμη, μόνο στη βουλγαρική γλώσσα, στον ακόλουθο σύνδεσμο του «Συμπληρώματος στην Επίσημη Εφημερίδα της ΕΕ» (TED): [<https://ted.europa.eu/udl?uri=TED:NOTICE:10090-2021:TEXT:EN:HTML&tabId=1>]. Τυχόν ενδιαφερόμενοι για συμμετοχή στο διαγωνισμό θα πρέπει να απευθύνονται στο ακόλουθο **σημείο επαφής** που ορίζεται στην προκήρυξη:

## Works - 10090-2021

11/01/2021 S6

---

I. II. III. IV. WE.

Bulgaria-city Sofia: Construction Work For Power Plants And Construction Equipment For Mining And Processing Industry

2021/S 006-010090

Contract notice - utilities

Construction

Plea:

Directive 2014/25 / EU

### Section I: Assignor

#### I.1) Name and addresses

Official name: Toplofikacia Sofia EAD

National registration number: 831609046

Postal address: 23 B Yastrebits Str.

City: Sofia

NUTS code: BG BULGARIA

Zip code: 1680

Country: Bulgaria

Contact person: Ina Milkova

E-mail: i.milkova@toplo.bg

Phone: +359 29033107

Fax: +359 28594149

Internet address ( es ):

Main address: <https://toplo.bg/>

Address of the buyer profile: <https://app.eop.bg/buyer / 26646>

#### I.3) Communication

The public procurement documentation is available for unlimited and full direct free access at: <https://app.eop.bg/today/100898>

Further information can be obtained from the above contact point (s)

Bids or requests to participate must be sent electronically via:

<https://app.eop.bg/today/100898>

#### I.6) Main activity

Extraction of gas or oil

### Section II: Subject

#### II.1) Scope of the public procurement

##### II.1.1) Name:

Design, incl. author's supervision and construction of an installation for combined energy production in Sofia with utilization of RDF – fuel, ... continues in section VI.3) ...

II.1.2) Basic CPV code

45250000 Construction and assembly works for general construction of power plants and construction equipment for the mining and processing industry

II.1.3) Order type

Construction

II.1.4) Short description:

The scope of the public procurement includes:

- design, incl. author's supervision and construction of an installation for combined energy production in Sofia with utilization of RDF – fuel, incl. preparation, purchase / delivery / installation (commissioning) of the necessary equipment, facilities and furniture,
- elimination of defects in the operation of the installation within the period for reporting defects, which is 2 years and starts from the issuance of a certificate of acceptance of the site,
- assisting the contracting authority in the operation and maintenance of the installation and training of staff for a period of 3 years, which runs from the issuance of a certificate of acceptance of the site, as described in the attached specifications.

II.1.5) Estimated total value

Value excluding VAT: 292 201 002.00 BGN

II.1.6) Information on lots

This contract is divided into separate items: no

II.2) Description

II.2.2) Additional CPV codes

45250000 Construction and assembly works for general construction of power plants and construction equipment for the mining and processing industry

II.2.3) Place of execution

NUTS code: BG BULGARIA

Main place of performance:

The place for implementation of common. The order is the city of Sofia – the site for the installation for RDF, separated on the territory of TPP "Sofia", quarter 22, site "II Industrial Zone – Military Ramp – Sofia".

II.2.4) Description of the public procurement:

The scope of the public procurement includes:

- design, incl. author's supervision and construction of an installation for combined energy production in Sofia with utilization of RDF – fuel, incl. preparation, purchase / delivery / installation (commissioning) of the necessary equipment, facilities and furniture,
- elimination of defects in the operation of the installation within the period for reporting defects, which is 2 years and starts from the issuance of a certificate of acceptance of the site,
- assisting the contracting authority in the operation and maintenance of the installation and training of staff for a period of 3 years, which runs from the issuance of a certificate of acceptance of the site, as described in the attached specifications.

Before starting the construction, the contractor must remove from the site an unfinished construction site – an unfinished chimney (69 meters high) and columns for an unbuilt building of hot water boilers.

In connection with the commissioning of the installation, the contractor is responsible for preparing the full package of documents required by the contracting authority to obtain a comprehensive permit in accordance with the Environmental Protection Act, the Waste

Management Act and bylaws on their implementation.

The implementation of the activities within the scope of the contract will be carried out in accordance with the contractual conditions of FIDIC for technological equipment and design – construction, first edition 1999 (Yellow Book).

#### II.2.5) Award criteria

The criteria below

Quality criterion – Name: Indicator C – environmental and technical values (ETV) / Weight: 35

Cost criterion – Name: Indicator A – Direct Economic Value (DEV) / Weight: 60

Cost criterion – Name: Indicator B – Indirect economic value (IEV) / Weight: 5

#### II.2.6) Estimated value

Value excluding VAT: 292 201 002.00 BGN

#### II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Start date: 29/07/2021

End date: 31/12/2023

This order is renewable: no

#### II.2.10) Information about the options

Variants will be accepted: no

#### II.2.11) Information about options

Options: not

#### II.2.13) Information on European Union funds

The procurement is related to a project and / or program funded by the European Union: yes

Project identification:

Project № BG16M1OP002–2.008–0001 "Design and construction of an installation for cogeneration in Sofia with utilization of RDF – third phase of an integrated system of municipal waste treatment facilities of Sofia Municipality", funded under Priority Axis 2 – "Waste "Of the Operational Program" Environment "2014–2020 and the European Investment Bank.

#### II.2.14) More information

An Agreement № D–17 / 2.03.18 on the provision of services in connection with project support has been signed between the European Investment Bank, Sofia Municipality and Toplofikacia Sofia EAD.

### Section III: Legal, economic, financial and technical information

#### III.1) Conditions for participation

##### III.1.1) Suitability to pursue the professional activity, including requirements relating to entry in professional or commercial registers

List and brief description of the conditions:

The participants must be entered in the Central Professional Register of Builders (CPRC) under the Law on the Chamber of Builders (CCA) for constructions, of the fourth group, second category according to Art. 5, para. 6, item 4.2 of the Regulations for the order for entry and keeping of the Central Professional Register of the builder (PRVVCPRS), in connection with art. 137, para. 1, item 2, letter "d" of the Spatial Planning Act (SPA) and Art. 4, para. 4 of Ordinance № 1 of 30.07.2003 on the nomenclature of types of constructions (Ordinance № 1/2003), and for foreign persons – in similar registers according to the legislation of the state in which the participant is established, for the indicated scope of activities .

Declaration: when submitting a tender, the tenderer shall declare the information on compliance with the eligibility criteria in Part IV: "Selection Criteria", Section A: "Eligibility" of the ESDP, as:

- Participants registered in BULGARIA indicate data on the entry in the Central Professional Register of the Chamber of Builders,
  - For participants – foreign persons, data for entry in similar registers according to the legislation of the country in which they are established shall be indicated.
- Evidence: in the event that documents proving the information specified in the ESDP are required in the course of the procedure, participants must submit the following documents and information certifying the selection criteria certifying the selection criteria under Part IV "Selection Criteria" , section A:
- For participants registered in BULGARIA: certified copy of the certificate for registration in the Central Register of Builders in BULGARIA for execution of constructions of the fourth group, second category of constructions according to art. 5, para. 6, item 4.2 of PRVVCPRS, in connection with art. 137, para. 1, item 2, letter "d" of the Spatial Development Act and Art. 4, para. 4 of Ordinance № 1/2003 on the nomenclature of types of constructions,
  - For foreign persons who fall within the scope of Art. 25a of the Law on the Chamber of Builders (LCS) the document under Art. 25a, para. 2, item 1 of the LCA, and for the other foreign participants – a document for entry in an analogous register.

### III.1.2) Economic and financial condition

List and short description of the selection criteria:

1. The tenderers must have achieved during the last three completed financial years, depending on the date on which the tenderer was established or started his business, a minimum turnover realized in the field falling within the scope of the public procurement.

"Public procurement scope" means: design, construction and commissioning of energy facilities or cogeneration facilities with recovery of RDF waste or municipal waste.

Detailed information: according to Part II, Section 3 of the documentation.

2. The participant must have a valid insurance (s) "Professional responsibility in design" and "Professional responsibility in construction", according to art. 171, para. 1 of the Spatial Development Act.

Detailed information: according to Part II, Section 3 of the documentation.

Minimum level (s) required:

1. Rel. minimum turnover requirement:

Minimum turnover realized in the field falling within the scope of the public procurement, amounting to a minimum of BGN 290 000 000 (two hundred and ninety million) without VAT or their respective currency equivalent.

2. Rel. insurance requirement:

Insurance covering the minimum insurance amount, according to art. 5, para. 1 and 2 of the Ordinance on the terms and conditions for compulsory insurance in design and construction for the category of construction, according to the construction – subject of the public procurement, for persons registered in the territory of the Republic of BULGARIA or equivalent professional liability or guarantee insurance in another Member State Union, or to another State Party to the Agreement on the European Economic Area or to the State in which the Participant is established.

### III.1.3) Technical and professional capabilities

List and short description of the selection criteria:

1. The tenderer must have carried out activities with a subject and volume identical or similar to those of the contract during the last 8 years from the closing date for the submission of tenders.

The duration of the period thus set is determined by the fact that the implementation of such projects has a high degree of complexity and complexity, to achieve which in many cases takes longer than the deadlines provided by law. In addition, the deadline expands the range of potential bidders, allowing more bids to be submitted.

Detailed information: according to Part II, Section 4 of the documentation.

2. Tenderers must have staff and management staff with professional competence to carry out the contract.

Detailed information: according to Part II, Section 4 of the documentation.

3. The tenderer must implement a quality management system.

Detailed information: according to Part II, Section 4 of the documentation.

4. The participant must apply a system or standards for environmental protection.

Detailed information: according to Part II, Section 4 of the documentation.

Minimum level (s) required:

1. Rel. the requirement for completed activities:

"Activities with a subject and scope identical or similar to those of the contract" means a successfully completed at least one project for design, construction, commissioning and participation in the operation (including joint operation or under its supervision) of boiler houses cogeneration plants, based on grill technology, waste feed system and slag and boiler / fly ash separation systems with recovery of RDF waste or municipal waste with a capacity of at least 120 000 t / year.

Projects for which an acceptance certificate can be submitted in accordance with sub-item 10.1 of the FIDIC Yellow Book or equivalent documents have been successfully completed.

2. Rel. the requirement for staff and management:

- Team leader (key expert 1),
- Technical Manager – Contractor's Representative (Key Expert 2),
- Chief Designer (Key Expert 3),
- Technological Designer (Key Expert 4),
- Designer for the "Constructive" part (key expert 5),
- Designer for the Geodesy section (key expert 6),
- Designer in the part "Heating, ventilation, air conditioning, refrigeration, heat and gas supply" (OHCHR) (key expert 7),
- Designer for the "Electrical" part (key expert 8),
- Designer for the part "Water supply and sewerage" (key expert 9).

The requirements for education, professional qualification and experience of the experts are contained in detail in Part II, Section 4 of the documentation.

3. Rel. The quality management system requirement:

The participant must have an implemented quality management system, certified according to standard EN ISO 9001: 2008/9001: 2015 or equivalent, with a scope of certification in the field of design and construction.

4. Rel. the requirement for an environmental protection system or standards:

The participant must have an implemented system for environmental protection according to the standard BDS EN ISO 14001: 2005/14001: 2015 or equivalent, with a scope of certification in the field of design and construction.

#### III.1.4) Objective rules and criteria for participation

List and brief description of rules and criteria:

1. Any participant for whom there are grounds for removal related to the personal condition under Art. 54, para. 1 and Art. 55, para. 1 of the Public Procurement Act, which arose before or during the procedure.

2. Specific national grounds for exclusion:

- crimes under Art. 194–208, Penal Code; Art. 213a — 217, NK; Art. 219–252, NK; Art. 254a — 255a, NK; Art. 256–260 of the Penal Code; violation under Art. 13, para. 1 of the Labor Migration and Labor Mobility Act; breach of obligations in the field of labor law; Art. 61, para. 1, art. 62, para. 1 or 3, Art. 63, para. 1 or 2 and Art. 228, para. 3 of the LC,
- presence of the circumstances under art. 69 of LCONPI,
- existence of circumstances according to art. 3, item 8 of ZIFODRYUPDRKTLTDS, unless they fall within the exceptions under Art. 4 of the same law,

- presence of connection in the sense of § 2, item 45 of the Additional Provisions of the Public Procurement Act, in connection with Art. 107, item 4 of the Public Procurement Act.
- 3. Dr. grounds specified in Part II, Section 1 of the documentation, according to the Public Procurement Act.
- III.1.6) Deposits and guarantees required:  
Upon signing the public procurement contract, the contractor shall submit to the contracting authority a performance guarantee of 5% of the contract price and a guarantee of advance payment of 20% of the contract price.
- 2. Guarantees shall be provided in one of the following forms:
  - 1) monetary amount;
  - 2) bank guarantee;
  - 3) insurance.
 Detailed information according to the draft contract and documentation.
- III.1.7) Main financial conditions and methods of payment and / or reference to the provisions governing them:  
Detailed information according to the draft contract and documentation.
- III.1.8) Legal form to be taken by the group of economic operators to whom the contract is awarded:  
The assignor does not take advantage of the opportunity under Art. 10, para. 2 of the Public Procurement Act and does not set a requirement for the establishment of a legal entity when the designated contractor is an association of natural and / or legal entities.
- III.2) Terms in connection with the order
- III.2.2) Conditions for execution of the order:  
The implementation of the activities within the scope of the contract will be carried out in accordance with the contractual terms of FIDIC for technological equipment and design–construction, first edition 1999 (Yellow Book).  
Deadline:
  - 1) for design, incl. author's supervision and construction of the installation – 30 months from the date of commencement of performance under the contract for common. order, and not later than 31.12.2023 the site must be put into operation with a protocol form 16 under Ordinance № 3 of 31.07.2003;
  - 2) elimination of defects during the operation of the installation within the term for reporting defects, which is 2 years and starts from the issuance of a certificate for acceptance of the site and ends with the issuance of a certificate for implementation;
  - 3) assistance to the contracting authority in the operation and maintenance of the installation for a period of 3 years, which runs from the issuance of a certificate for acceptance of the site;
  - 4) staff training for 3 years from the issuance of a certificate for acceptance of the site.
- III.2.3) Information on the staff responsible for the execution of the contract  
Obligation to indicate the names and professional qualifications of the staff responsible for the execution of the contract

#### Section IV: Procedure

- IV.1) Description
- IV.1.1) Type of procedure  
Open procedure
- IV.1.3) Information on a framework agreement or a dynamic purchasing system
- IV.1.8) Information on the Government Procurement Agreement (GPA)  
The procurement falls within the scope of the Government Procurement Agreement (GPA): no

- IV.2) Administrative information
- IV.2.2) Deadline for receipt of tenders or requests to participate  
Date: 15/03/2021  
Local time: 23:59
- IV.2.3) Estimated date of sending invitations to tender or to participate to the selected candidates
- IV.2.4) Languages in which tenders or requests to participate may be submitted:  
Bulgarian
- IV.2.6) Minimum period during which the tenderer is bound by the tender  
Duration in months: 18 (from the date indicated for the date of receipt of the offer)
- IV.2.7) Conditions for opening tenders  
Date: 16/03/2021  
Local time: 13:00  
Place:  
In the system.

#### Section VI: Additional information

- VI.1) Information on recurring award  
This is a recurring order: no
- VI.3) More information:  
1. Continued from section II.1.1) ... incl. preparation, purchase / delivery / installation (commissioning) of the necessary equipment, facilities and furniture, as well as supervision of the operation of the installation for a period of 3 years including: elimination of defects during the period for notification of defects, assistance in operation and maintenance and training of the staff".
- VI.4) Appeal procedures
- VI.4.1) Body responsible for appeal procedures  
Official name: Commission for Protection of Competition  
Postal address: 18 Vitosha Blvd.  
City: Sofia  
Postal code: 1000  
Country: Bulgaria  
E-mail: cpcadmin@cpc.bg  
Phone: +359 29884070  
Fax: +359 29807315  
Internet address: [http : //www.cpc.bg](http://www.cpc.bg)
- VI.4.3) Filing complaints  
Precise information on deadline / deadlines for lodging complaints:  
According to the provision of art. 197, para. 1, item 1 of the Public Procurement Act, an appeal may be filed within 10 days from the expiration of the term under Art. 100, para. 3 of the Public Procurement Act – against the decision to initiate the procedure and / or the decision to approve the notice of amendment or additional information. The appeal shall be submitted to the Commission for Protection of Competition with a copy and to the contracting authority, whose decision is being appealed.
- VI.5) Date of dispatch of this notice:  
06/01/2021
