**Arab Republic of Egypt
Ministry of Electricity and Energy
Egyptian Electricity Holding Company
Egyptian Electricity Transmission Company
(EETC)**

**Combined Cycle Power Plant Project
in Dairut, Behera Governorate**

Invitation for Pre-qualification IFPO'56/2009/2010

EETC is inviting experienced developers to submit their pre-qualification in the implementation of a power plant in Dairut, Behera Governorate and sell the generated electric power to EETC. The project will be 2 x 750 MW combined cycle units capable of firing both natural gas and light oil. Developers may propose an option for a 3 x 750 MW plant at the same site.

The configuration of each module is (2 + 2 + 1) with each gas turbine having installed nominal capacity of 250 MW or more at ISO conditions.

The project developer will be required to design, finance, construct, own and operate the plant and sell the generated electric power to EETC in accordance with a Power Purchase Agreement for 20 (twenty) years duration.

The request for Pre-qualification (RFPQ) is currently available and may be obtained by interested developers from the address written below starting Monday February 1st, 2010:

**Head of Purchase Sector
Egyptian Electricity Transmission Company
Abbasia, Cairo
Tel. & Fax : 00202-22616537
e-mail: eetc.chairman@eetc.net.eg**

Subject to a payment of US\$1000 (one thousand US dollars) in Cash or a Cashier Check Payable to the Egyptian Electricity Transmission Company, Account No. 77/71/100/1100 National Bank of Egypt (Nasr City Branch), Cairo, Egypt.

The Pre-qualification documents that will be prepared by interested developers in response to this RFPQ must be submitted to EETC before 12:00 Noon on Wednesday 31/3/2010.

The submitted documents will be evaluated to establish a short list of qualified developers. EETC will send the Request For Proposal (RFP) to the short listed developers inviting them to submit their proposal for the intended project.
