bauma CHINA

The European Pavilion will be organized to support companies from European countries to gain access to the Chinese market. It is an alternative show participation specially for those exhibitors who do not get governmental support from their country.

Which exhibitors are allowed to apply for the European Pavilion?

- Only exhibitors from Europe - geographicalwise.
- Exhibitors who cannot afford a participation without any support money but are eager to take the first step into the Chinese market.
- Exhibitors who do not have the opportunity of a national pavilion due to the lack of subsidies of the own country.
- Exhibitors who missed the application deadline for its own national pavilion.
