SUBJECT: Invitation For Participation

His Excellency the Commercial Attaché at the Embassy of Greece

We are pleased to invite your interested business entities, especially contractors to join us in the first Future Projects Forum (FPF), which will be held on February 26 and 27, 2019 in Crown Plaza RDC, Riyadh-Saudi Arabia. Interested entities can register directly through the event web site (www.saudifpf.com).

This event is intended to present GIGA projects that will be executed during the period 2019-2021 by their proponent in one platform. These projects include but are not limited to infrastructure, housing, oil and gas, petrochemicals, operations and maintenance, and more importantly, Vision 2030 related projects. We expect more than 30 private and governmental entities to participate in this event and share more than 360 projects valued more than 50 billion US Dollar, with more than 1,000 contractors and interested organizations. The list of participants, projects, and estimated values are updated on the event website.

Saudi Contractors Authority was established by Council of Ministers Decree #510 to develop the contracting sector in Saudi Arabia and uplift its capabilities. Part of its mandate includes informing contractors with current and upcoming opportunities in the contracting sector. The FPF 2019 will be the first of its annual events to bring together owners, contractors and interested entities in one platform to collaborate and to share business opportunities.

Saudi Arabia is undergoing a huge transformation as part of its Vision 2030 initiative. Vision 2030 includes several goals and reform strategies for the Kingdom's long-term economic success, including reductions in subsidies, the creation of a sovereign wealth fund, and reforms to several industries including tourism, Haj & Umrah, healthcare and education, energy and logistics, infrastructure and defense, creating huge opportunities for the contracting sector.

If you need more clarifications, please feel free to visit our website sca.sa, call us at 920000968 or contact Mr. Rayan Aloffi at +966530046467 or email (events@sca.sa).

We appreciate and express our gratitude for your kind support to our authority in achieving its objectives

Eng. Thabet M. Al-Sawyeed
